

Werra by boat	Eichsfeld with bike	Harz on hike
--------------------------	--------------------------------	-------------------------

**Seminar of the AK Grenzsprenger 2011
“GRÜNES BAND HOCH DREI”
29.08.-07.09.2011**

Would you like to spend some interesting and sportive days along the former German border?

At the former West-/East German border there exist different cultures, history, languages and sorts of living. Special kinds of the establishing of the “Green belt” with the problems of infrastructure, building roads, agriculture and other interests will be discussed.

The first part of the tour will us lead along the river Werra the former border:

At many places you will get information about the former divide of Germany, e.g. the construction of the border in 1963. With photos and texts about the tide of events, which befell the respective place and the political situation and the daily life in the divided nation a narration will recall that former time on a colourful and concrete way. Let’s start with the meeting with your own and our history, present and future.

The second part will us bring along the former border trough the landscape of Eichsfeld

This route along the former border, leads us through the catholic culture of the former GDR – the Eichsfeld. At the beginning we will have a look at the border museum “Schiffersgrund”, nearby a man was shot to death at his try to flee. Another of the historic spots will be “Lager Friedland”, where thousands of refugees stopped on their way to Western Germany. The actual situation of cultivate the Green Belt with its nature will be seen at the house of the “Heinz Sielmann Stiftung”. At the end we will pass a tower of protection the border.

The third part of the tour will us lead up the mountains of the Harz:

Special german names like ELENDE, SORGE or SCHIERKE will be passed on our hiking tour. The BROCKEN was just the symbol of the separation of the country. Nowadays there is a nature park and the Green belt is one of the attractions of this place of recreation. Especially the old steam engine railway is the point of interest for technical freaks and we will use it but more often we will hike.

	TEIL II	TEIL I	TEIL III
TITLE	Werra	Eichsfeld	Harz
TRANSPORT	canoe	bike	hike / railway
START	HÖRSCHERL nearby Eisenach	Bad Sooden- Allendorf	Bad Sachsa or Sophienhof
